

Kiosk Guide

You will need:

- Direct physical access to a kiosk machine
- The store account matching to the respective kiosk. In case you have not been provided with such an account, please contact your administrator.

Log in

- Type your username and password to log in, then hit “NEXT”.
- Each account matches to a specific store thus in order to log in, you should select the kiosk you want to use then hit “LOG IN”.

Log out

- After logging in the kiosk is ready for use.
- If you wish to log out for some reason (e.g change kiosk) , you should triple-tap on the up & left corner (see highlighted area in the attached image).

Lock Kiosk

- If you wish to lock a kiosk machine for some reason (e.g prevent use from a walk-in customer), you should first reach www.kfc.gr/admin then log in to Fimble admin platform using the store credentials.
- Open the Orders Monitor app
- Go to Store monitor tab then hit “Open new window” button.
- By scrolling all the way down at this new page, you are being provided, amongst all, with the available store kiosks. In that section, system gives the ability to lock and / or unlock one or more kiosks.
- If a kiosk is being locked then any person trying to use it will be asked to proceed to the physical cash register to place an order.
